```java
import java.util.Scanner;
public class Exception_handling {

  public static void main(String[] args) {

    int a,b;

    Scanner sc = new Scanner(System.in);

    System.out.println("Enter value for num1:");
    a = sc.nextInt();
    System.out.println("Enter value for num2:");
    b = sc.nextInt();

    arithematic_operations obj = new arithematic_operations(a,b);

    obj.division();

    System.out.println("hello this is main method");
  }

}
```
